Lia Purnamasari

Dear Mr Rensen

20 January 2012

First of all, I would like to wish Happy New Year to all members of Tristan Foundation, all the best to all you do in 2012! Also I would like to thank you for all support I receive from Tristan foundation which have made me accomplished my study last December 2011. Currently I am still planning my future plan, since I'm quite occupied with my 17 months old boy. I don't want to be a house wife for the rest of my life, as soon as my boy is old enough, I would like to try to open a culinary shop in a potential location. Just like I said before, this is still in planning stage, but I really hope I can materialize it shortly, so I can apply everything I learn for my own family and hopefully for others. I hope I can update you next time with the materialization of my dreams, may God bless Tristan Foundation and it's members, may you be the channel of blessings for others.

Sincerely yours;

Lia Purnamasari
